
Vibe SA K Series

"The new and much improved SA - K series are amongst some of the finest sounding speakers available in today's market." They offer superb integration between the woofer and tweeter, using a Kevlar cone and polyurethane surround, they produce an overwhelming experience rarely heard in the car environment. With many of the SA's already strong features receiving significant improvements the new SA - K series range combines quality and reliability to provide a sonic experience that picks up amazing detail and delivers it with reference quality and precision whilst following up with dynamic control SPEEDBASS™.
